ESS Series Shredder

The ESS Series Shredder features a rugged self-aligning gearbox, that is able to transmit the heavy shock loads encountered while shredding heavy material.

The rotor is fitted with “staggered” style square knives positioned on heavy duty outboard style bearings. Self-contained hydraulic power-pack controls the arc-style ram. The arc-style ram uses gravity and ram pressure that allows the material a better approach angle to the rotor.

Standard Multi Purpose Rotor

Film and large part rotor available

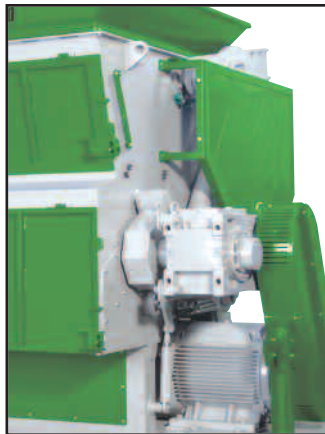

Self-Contained Ram Hydraulic Unit

Benefits:

- Amperage control ram regulates material feed and ram pressure
- Multiple rotor styles for a variety of applications including film and bulky parts
- Dual rows of bed knives

Models:

- SS 850, 1200, 1500 and 2000
- 50 through 150 HP

Specifications				
Model	850	1200	1500	2000
Feed Opening (mm)	1700x180 mm (67x46 in.)	1470x1920 mm (58x76 in.)	1745x1920 mm (69x76 in.)	2300x920 mm (91x76 in.)
Rotor Dia. (mm)	387 mm (15.3")	457 mm (18")		
Drive Capacity (kW)	37 (50 HP)	55 (50 HP)	75 (101 HP)	2x55 (148 HP)
Rotor Speed (rpm)	80			
Rotor Knives A/B/E (pieces)	80/85/60	108/110/81	136/140/102	192/195/144
Bed Blades	3	4	5	7
Screen Size (mm)	20-100 (.79" - 4")
